10+ Years in Enterprise IT

100+ Enterprise & Gov Clients

Evolve Blue is a U.S.-based Technology & Talent company helping enterprise and government teams execute through technical talent, software capability, and aligned delivery support. We operate across two focused pillars — Evolve Technology and Evolve Talent — with onshore-first delivery, full HR and payroll infrastructure, and the compliance posture enterprise and regulated clients require.

EVOLVE TECHNOLOGY Enterprise Technology Execution

Four focused execution offers. No bloat. No vague advisory.

01 Build & Modernize

Custom apps, legacy modernization, product experience, interface modernization, UI framework implementation, and AI-enabled front-end delivery.

02 Connect Data & Platforms

Enterprise integrations, API development, CRM/ERP/middleware connectivity, data engineering, and AI-ready data foundations.

03 Automate Workflows

Document processing, OCR, test and QA automation, AI-assisted workflow agents, and targeted process automation across business operations.

04 Run Cloud & Operations

Cloud enablement, DevOps/CI-CD, observability, platform support, and managed technical operations for enterprise environments.
